

INDRAJ PARJAPAT

Churu, Rajasthan, India | indrajparjapat046@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate with hands-on expertise in SQL, Python and Power BI. Proficient in data cleaning, exploratory data analysis (EDA), data wrangling and dashboard development. Experienced in designing multi-page interactive dashboards for sales analytics, COVID-19 trend analysis and securitisation risk reporting. Completed an end-to-end Data Analytics certification and delivered actionable insights to stakeholders through complex queries, KPI reporting and data visualization. Seeking a Data Analyst, Business Analyst, Power BI Developer or Data Science internship to drive data-informed decision-making.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java, C

Data Analysis: EDA, Data Cleaning, Data Wrangling, Data Visualization, Statistical Analysis, KPI Reporting

BI & Visualization Tools: Power BI, Tableau, Microsoft Excel (PivotTables, VLOOKUP, Charts)

Databases & Tools: MySQL, SQL Server Management Studio (SSMS), Git, GitLab

Data Concepts: Data Modeling, ETL Processes, Dashboard Design, DAX, Business Intelligence

AI Tools: ChatGPT, Claude, Julius, Quadratic

PROJECTS

Pizza Sales Analytics Dashboard | 2024

- Transformed and cleaned 48,000+ raw sales records using SQL and Power BI Dataflows to prepare structured datasets for analysis.
- Designed a 2-page interactive Power BI dashboard featuring slicers, KPI cards, drill-down visuals, weekday and monthly trend analysis, category-wise sales distribution and best/worst-selling product insights.
- Collaborated with stakeholders to iterate on dashboard design requirements, ensuring visual outputs aligned with business KPIs and reporting needs.

COVID-19 Data Analysis and Visualization | 2025

- Wrote optimized MySQL queries to extract and transform public COVID-19 datasets, improving query performance for large-scale data retrieval.
- Built Tableau dashboards visualizing infection trends, recovery rates and mortality patterns across states, enabling clear epidemiological insights.
- Delivered ad hoc analyses and visual reports to internal stakeholders within 24 hours, iterating on dashboard design based on feedback.

Securitisation Risk Analytics Platform | 2025

- Designed and developed an end-to-end securitisation risk analytics platform using Power BI and DAX formulas.
- Built 8 interactive dashboards covering portfolio monitoring, IFRS 9 risk analytics, delinquency management, cash flow analysis, vintage analysis, investor reporting and stress testing.
- Automated risk metric calculations using DAX, reducing manual reporting effort and improving data accuracy for stakeholder presentations.

EDUCATION

B.Tech in Computer Science

2023 – Present

Engineering College Bikaner | Churu, Rajasthan, India

- Relevant Coursework: Data Structures, Database Management Systems (DBMS), Statistics, Python and Java

CERTIFICATIONS

Data Analytics Professional Certificate – Udemy | 2025 – 2026

- Completed an end-to-end data analytics curriculum covering data collection, cleaning, analysis and visualization using Python, SQL and Power BI.
- Developed interactive dashboards and reports to communicate data-driven insights to both technical and non-technical stakeholders.

CORE COMPETENCIES

Analytical Thinking | Problem Solving | Attention to Detail | Stakeholder Communication | Data Storytelling | Team Collaboration
