

# INDARJ PARJAPAT

Churu, Rajasthan, India | [indrajparjapat046@gmail.com](mailto:indrajparjapat046@gmail.com) | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

---

Computer Science undergraduate with proficiency in SQL, Python, and BI tools such as Power BI and Tableau. Skilled in data cleaning, wrangling, and visualization, with hands-on experience building interactive dashboards for sales analytics, COVID-19 trends, and risk reporting. Completed a certified Data Analytics course and delivered actionable insights through complex queries and reports. Seeking an entry-level Data Analyst role to support data-driven decision-making.

## TECHNICAL SKILLS

---

- **Programming Languages:** Python, SQL, Java, C
- **Data Analysis:** EDA, Data Cleaning, Data Wrangling, Data Visualization, Statistical Analysis
- **BI & Visualization:** Power BI, Tableau, Excel (PivotTables, VLOOKUP, Charts)
- **Databases & Tools:** MySQL, SSMS, GitLab, Git
- **Data Concepts:** Data Modeling, ETL Processes, Statistics, Dashboarding, KPI Reporting
- **AI Tools:** ChatGPT, Claude, Julius, Quadratic

## PROJECTS & TRAINING

---

### Pizza Sales Analysis Dashboard

- Transformed and cleaned 48K+ raw sales records using SQL and Power BI dataflows before building an interactive dashboard to analyze revenue, order patterns, product performance, and customer trends.
- Designed a 2-page interactive dashboard with slicers, KPI cards, drill-down visuals, weekday/monthly trend analysis, category-wise sales distribution, and best/worst-selling product insights.
- Collaborated with stakeholders to iterate on dashboard design requirements, ensuring drill-down visuals, KPI cards, and trend analysis met business needs.

### COVID-19 Data Analysis

2026

- Optimized MySQL queries to extract public COVID-19 data and built Tableau dashboards highlighting infection trends, recovery rates, and mortality patterns across states.
- Delivered ad hoc analyses and visual reports to internal stakeholders within 24 hours, iterating on visual design in Tableau based on feedback.

### Securitisation Risk Analytics Platform

- Designed and developed an end-to-end securitisation risk analytics platform using Power BI and DAX.
- Built 8 interactive dashboards covering portfolio monitoring, IFRS 9 risk analytics, delinquency management, cashflow analysis, vintage analysis, investor reporting, and stress testing.

## EDUCATION & CERTIFICATIONS

---

### Engineering College Bikaner

B.Tech, Computer Science

- **Coursework:** Data Structures, DBMS, Statistics, Python, Java

2023 - Present

Churu, Rajasthan

## CERTIFICATION

---

- **Data Analytics Course: Udemy 2025–2026. Mastered end-to-end data analysis: collection, cleaning, analysis, and visualization using Python, SQL, and Power BI. Built interactive dashboards and reports to communicate insights to non-technical stakeholders.**
